

With inspired orchestration, creative grooves, unpredictable paths, and an overall joyous feeling, this album is pure delight! Ms. Klukken's technical prowess doesn't masquerade her sheer passion for music.

She uses her fluid command of the marimba to create thought-provoking compositions. She and her bandmates convey an array of emotions that are fresh and new, yet tip their hat to South America in a respectful way.

—Laura Caviani, Jazz Area Director, Carleton College, MN
